

Consider Novotel tent' Advantages:

For more than 30 years, we have been offering quality engineered structures for gaming, schools, prisons, churches, convention centers and entertainment venues. The PAVILION provides a clean, bright, open air environment for to meet most additional space requirements. The custom shapes, aesthetically pleasing design and crisp finish creates a permanent functional facility at a fraction of the cost of traditional construction.

- **Quick Availability On-Site** Pavilion structures can be built directly on site with limited or no foundations giving you quick access to your new space.

- **Cost Effective, Quality Solutions** Pavilion is designed to maximize your investment. Our structures are low maintenance and modular for ease of expansion and re-location – as your requirements expand, so can the structure. We strive to offer the best overall value when compared to other options.

- **Flexibility to Adapt to Virtually Every Need** Pavilion offers a broad selection of structures and sizes in aluminum or steel construction with numerous finishing options such as insulation, HVAC, lighting systems, doors, and a variety of outer fabrics and inner liners.

- **Technical Superiority** Pavilion offers technically advanced pre-engineered solutions that utilize premium architectural membranes specific for tension structures. Our structures are designed and engineered for extreme climates, wind and snow loads in adherence with strict international standards and codes.

- **Industry Leading Quality** We strive to consistently improve the Pavilion based on clients' feedback and new technologies. Our industry-leading quality program combined with state of the art engineering, computer aided design and drafting processes (CADD) provide the highest standards of excellence in product development. We are proud to be an ISO 9001 certified company.

- **Professional Service** We provide unparalleled worldwide service and support including specialists to supervise the complete process with follow-up and committed project management that never compromises.
